Good afternoon Scott,

Thank you for providing the information below.

Please be advised, we have forwarded your request for information to our FOIA department. A representative from that department will follow up with you directly.

Regards,

Ms. Kanoe Ho

Subject: Re: AquaFlex BioSolutions Bundle

Ms. Kanoe Ho,

Thanks for taking the time to speak with me today.

I understand from our conversation that the EPA received an anonymous tip related to the Viral Kryptonite bundle. Furthermore, I understand this anonymous tip was forwarded to someone other than you at the EPA and that you do not have a written record of, nor the details of, the anonymous tip. I would like to formally request a copy of all communications related to this anonymous tip and believe FOIA will apply.

AquaFlex BioSolutions' primary product is Open-Cell foam that is currently sold in a mitt or sponge form. Our Open-Cell foam is designed to work with any EPA-registered disinfectant to help mitigate the risk of human infection from pathogens that may be on surfaces. Our Open-Cell foam functions as an applicator to deliver approved EPA-registered disinfectants to surfaces that same way as paper towels, cloths, rags, etc. that are used with disinfectant to wipe down surfaces.

We offer for sale Open-Cell foam mitts and sponges that in some cases get combined with an EPA-registered disinfectant under the tradename Conqueror. We purchase the Conqueror disinfectant from American Cleaning Solutions in a 1 quart bottle and resell as is with no modifications in any way including the labelling. The label is attached to this e-mail.

On March 20, 2020, I received the attached letter from American Cleaning Solutions informing me that the Conqueror disinfectant was added to the newly expanded list of EPA-registered disinfectant products that have qualified for use against SARS-CoV-2, the novel coronavirus that causes COVID-19. The third attachment was also received with this letter.

If you have any other questions, I can be reached at 508-345-6520.

Sincerely,

Scott Smith

Subject: AquaFlex BioSolutions Bundle

Good afternoon,

We were notified that AquaFlex BioSolutions may be selling a pesticide with the product "AquaFlex BioSolutions Bundle". Upon review of the company website, it is unclear what product is being sold in the bundle. Please provide the name and EPA Registration number of the product that is being sold, as well as a copy of the label affixed to the product.

Additionally, on the company website, a disinfectant called "Viral Kryptonite" is being advertised. Is this product registered with the EPA? Please also provide a copy of the Viral Kryptonite label.

Please let me know if you have any questions about the request.

Regards,

Ms. Kanoë Ho
